DOB:

27/03/94

Marital Status:

Single

Location:

Uttarakhand, India

Professional Summary

- Expertise in Frameworks like **Spring Boot** and **Angular 7+**.
- Experience in developing **Microservices** using **Spring Boot**, **Netflix (Zuul, Eureka, Ribbon, Hystrix)** with **domain driven design** followed by **TDD**.
- Knowledge of **WS-Security** using **JWT** and **OAuth**.
- Designed and developed asynchronous RESTful services using **Spring boot reactive stack**.
- Good knowledge of developing **Single Page Applications(SPA)** using **Angular**.
- Working knowledge in **Core Java** and **Hibernate**.
- Experience in working in **Agile-based SDLC** environment and participating in different **Scrum sessions**.
- Experience in Configuring and deploying applications on **Tomcat**, **Heroku** and **ECS**.
- Experience in working with version control system like **GIT** and using source code management tool like **GitHub**.
- Experience in using **build/deploy** tools such as **Jenkins** and **Docker** for **Continuous Integration & Deployment** for **Microservices**.
- Experience in working on **AWS services** like **SQS, SNS, S3, ECS** and Integration with Java using **AWS SDK**.
- Experience in **JMS API** using **ActiveMQ**.
- knowledge of working in **Jhipster**.

Skills

- **Spring Boot**
- **Angular**
- **Java**
- **Hibernate**
- **Docker**
- **Typescript**
- **MySQL**
- **PostgreSQL**
- **Mockito**
- **JUnit**
- **Maven**
- **HTML**

Work Experience

Software Engineer

Rubico IT, Uttarakhand

October 2019 - Present

- Currently working as a Software Engineer, working on **microservices** using **Spring Boot**.

Software Engineer

Hays Plc, Noida

Dec 2017 - Oct 2019

- Worked as a Software Engineer on technologies like **Spring Boot(spring security, spring data JPA, spring data rest)** and **Angular**.

Awards

Shining Star

12-07-2018

Hays Plc.

Recognition Award for Quarter-4

Projects

One Touch Sprint 806-809

Role: Developer

- Changes introduced in [One Touch](#) System to enhance its functionality. [Linkdin Integration](#), new workflows introduced to provide better user interaction with [GDPR](#) changes..

ANZ- Perm Placement

Role: Developer

- A new mechanism how a placement is sent to [FOIL](#)(Front Office Integration Layer) from [One Touch](#) for Australia and New Zealand. Earlier the flow was from [One Touch](#) to [Back Office](#) for Confirmation, now the flow is from [One Touch](#) to [FOIL](#).

Veredus Contact Import

Role: Developer

- A new project using [Spring-boot](#) and [Angular](#) to search for Contact and Organisation from One Touch Database.

Automated Job Integration

Role: Developer

- An automated service for creating job in '[Tempbuddy](#)', a replacement for manual job creation, using [Spring Boot](#) and Angular

Tempbuddy

Role: Developer

- Additional enhancement to [Tempbuddy](#) and One Touch integration. Introduction of Job and placement flow from One Touch to Tempbuddy and vice-versa, Ogranisations, Sites, Contact and Candidate flow from [One Touch](#) to [Tempbuddy](#) and vice-versa.

TAX Application

Role: Developer

- An application to process [TAX Documents](#) for US based Client using [spring-boot](#) and [JavaFX](#).

Microservices for Tax-application

Role: Developer

- Creating [Splitter](#), [Scanner](#), [Compressor](#), [Verification](#), [SLA-Tracker](#) and [Dead-letter-queue-visibility](#) microservices using [Spring Boot](#).
