08/2020 - Present Greater Noida, India

Project : BFS RO EUR, Client : British Library. The British Library is the national library of the United Kingdom and is one of the largest libraries in the world. It is estimated to contain between 170 and 200 million items from many countries. As a legal deposit library, the British Library receives copies of all books produced in the United Kingdom and Ireland, including a significant proportion of overseas titles distributed in the UK. The Library is a non-departmental public body sponsored by the Department for Digital, Culture, Media and Sport.

Achievements/Tasks

- Defined and tracked test results, defect counts and performance discrepancies.
- Translated product drawings into workable schematics, verifying proper adherence to standards.
- Collected data for use in software process evaluation and improvements.
- Developed formal test plans for personal use and use by colleagues, producing Time saving results.
- Completed regression tests of new software build to assess performance and success of bug fixes.
- Identifies Delivery risks for ongoing projects, developing strategies to avoid delays.
- Reproduced defects and documented findings.

Senior Test Engineer Niit Technologies Ltd

11/2018 - 08/2020 Greater Noida, India

Project: Tiger Airways Australia. Tiger Airways Australia Pty Ltd, operating as Tiger air Australia, was an Australian low-cost airline. Founded by Tiger Airways Holdings, it commenced services in the domestic airline market on 23 November 2007 as Tiger Airways Australia. It later became a subsidiary of Virgin Australia Holdings. On 25 March 2020, Tigerair suspended all operations as a result of the COVID-19 pandemic. Following Virgin Australian Holdings going into voluntary administration and later sold, new owner Bain Capital confirmed the brand would be retired.

Achievements/Tasks

- Automated PSS APIs for Airline Tickets Reservation System.
- Operated API testing tools such as POSTMAN and SOAPUI.
- Trained junior testers in company standards, testing protocols and software such as MABL.
