- A self-motivated, result-oriented Software Professional having development experience in Object-oriented approaches in software design, development and implementation of **Education Domain**.
- Worked closely with Project Manager and Project Team in the definition and execution of project deliverables.

### Professional Experience (4.4 Years):

*Having 52 Months of experience on JAVA, JEE Technologies.*

1. Good exposure on Java, Spring MVC, Spring Boot and REST Web Services framework.
2. Ability to work with Tomcat servers, Weblogic, and WebSphere.

### Technical Skills:

Operating System	Windows Family
Programming Languages	Java (J2SE, J2EE) (Version-6, 7, 8, 11)
Frameworks	Spring MVC, Spring Boot, Hibernate, JPA
Web Technologies	JSP, Servlet, Web Services, SOAP, REST, Java Script, J Query, AJAX, JSON, HTML, CSS
Project Development and Implementation Tools	Eclipse, Maven, Rational Application Developer (RAD), IntelliJ.
Database	MYSQL, SQL, Oracle
Web Server	Apache Tomcat 7.0, WebSphere, Weblogic.
Version Control Tools	Tortoissvn, Git
Bug Trekking Tools	JIRA
Tools-	Service Now, Clear Case, Soap UI, nexus, putty, Win SCP, SQL Developer.

### Educational Qualifications:

- **B. Tech** Indraprastha Institute of Technology, AKTU in 2016 with 66.62%.
- **Senior Secondary:** Lakhaury Inter College Lakhaury Bheemnagar (UP Board) in 2012 with 57.8%.
- **Secondary:** Lakhaury Inter College Lakhaury Moradabad (UP Board) in 2010 with 50.66%.

## Projects Handel –

### 1. Eldermark Exchange

#### **Module Name: Simply Connect (Health Care Management System)**

Simply Connect is the only Health Information Exchange (HIE) designed exclusively for senior care. By enabling you to share the real-time story about your residents' well-being with other care providers, Simply Connect HIE helps to improve care and reduces unnecessary hospitalizations.

Simply Connect Web-Portal follows HL7 international standards for transfer of clinical and administrative data between software applications used by various healthcare providers. The Portal is developed with J Query as frontend along with JSP and Spring MVC. Application Securities are managed using spring security framework. Database used is SQL Server with Hibernate as ORM tool.

#### ➤ **Technical Specification:**

- **Development Platform: Java 8, 11**
- **Development & Implementation Environment:** Windows 7,8,10.
- **Frameworks & Technologies:** Spring Boot, Hibernate, JPA, Rest Web Services, SQL Server 2012, Maven, JIRA, GIT.
- **Java IDE:** Eclipse, IntelliJ.
- **Web Server:** Apache Tomcat 9.0.

#### **Key Responsibilities:**

- Development and maintenance for backend code of the web portal
- Integration with third party vendors/providers for data sync between applications.
- Working with GIT Hub for versioning management of code.
- Creating and fixing, unit tests and integration tests

### 2. Bharti Airtel

Bharti Airtel Limited is an Indian global telecommunications services company based in New Delhi, India. It operates in 20 countries across South Asia and Africa. Airtel provides GSM, 3G, 4G LTE mobile services, fixed line broadband and voice services depending upon the country of operation.

#### **SMSC(Short Message Service Center):EAI To ESB Migration-**

ViewProfileRestClient,AddSIBillableRestClient,AddSIRuleRestClient,NextBillDateRestClient,ViewUnbilledRestClient,ViewAccntSummaryRestClient,UpdateProfileBillPrefRestClient,BillDetailsRestClient,DealerPermissionRestClient.

#### **One Time E-Bill, Monthly E-Bill.**

#### **Whitelisting For Selfcare DIRS, DIRS PAN India, Homes Flag Integration.**

**SMG Portal: In SMG portal work on rest web services for-**Service for fetching list of uploaded files, Service for fetching e-bill delivery status, Service to download Success/ Failed file, Service for fetching e-Bill registration status, Service Fetching data post clicking to 'Edit' link, Update Email-Id, E-bill Limit Param and Service for storing E-bill activation file in DB

#### **CAP (Common Application Program)-**

##### **Kibana Integration-**

##### **Log4j Implementation-**

## **CAP-JK10- Unit Testing.**

### ➤ **Technical Specification:**

- **Development Platform:** JAVA 6,7,8
- **Development & Implementation Environment:** Windows 7,8,10.
- **Frameworks & Technologies:** Spring MVC, Web Services, Soap, Rest Web Services, Rest Client, JDBC Template
- **Java IDE:** Eclipse, Rational Application Developer (RAD).
- **Web Server:** WebSphere, Weblogic.
- **Tool:** Service Now, Clear Case, Soap UI, Git, nexus, putty, Win SCP, SQL Developer etc.

## **3. Live Source & MFG**

**Project Detail:** Created in 2000 under the Sourcing Parts brand, Live Source has grown over the last 16 years from a humble sourcing platform into a powerful supply chain management tool for sourcing and procurement professionals at some of the world largest and most influential manufacturing companies. In 2006, Live Source was acquired by MFG.com, the world largest online manufacturing marketplace, to combine the power of advanced supplier management with the global reach and efficiency of MFG.com.

- **Modules Handel:**

- **Quality:**

Enhance and improve quality using Live Source. Increase transparency to effectively implement corrective strategies such as 3D and 8D, and approval processes such as PPAP and FAI. Specify and standardize attestation protocols, while accurately managing the quality auditing process. Gain clear visibility into supplier quality performance and instantly communicate conformity complaints and alerts to ensure quality adherence and optimize your compliance program.

- Corrective Action: 3D & 8D, Non-Conformity, Initial Sample Inspection Report, PPAP & FAI, Audit Management

- **BOM:**

A bill of materials (BoM) is a list of the parts or components that are required to build a product. At its most complexes, a BoM is a multi-level document that provides build data for multiple sub-assemblies, which are essentially products within products.

- Creation of BOM, Update of BOM, Share of BOM, Deletion of BOM, Transfer to another user.

- **And Different Modules Uses:**

**Dashboard, Inbox, Projects, RFQ, RFI, Auction, Tooling, Administration, Suppliers, Reporting.**

### ➤ **Technical Specification:**

- **Development Platform:** JAVA 7
- **Development & Implementation Environment:** Windows 7, 8.
- **Frameworks & Technologies:** Spring MVC, Hibernate, JSP, Angular JS, SQL Server, Java Script, J Query, Ajax, JSON.
- **Java IDE:** Eclipse
- **Web Server:** Apache Tomcat

## **Responsibilities performed while working:**

- Providing / Suggesting Problem definitions and best possible solution for the problems.

- Issue Resolution and Enhancements through reporting bugs, bug fixes and task completion.
- As a Programmer, I worked on all the modules of publication domain and I write Action classes, Service, Service IMPL, DAO and DAO IMPL and many more business logic to complete this project.

#### 4. Avalon:

**Avalon** is a complete web solution for Business Institute. It's centralized all branches data that helps to save time, money and infrastructure. There are various panels for Admin and Non-Admin staff as per their permissions to manage major and minor task. It is fully integrated, self-decision making, unique, user friendly software which is designed as a complete solution for training institute. It's a most simple and secure educational software for any level of institutes /training centers.

- **Modules Handel:**
  - **Enquiry model:** This module handles the complete enquiry about personal detail, starting contact detail, rating on the basis of interest, visitor or not, status, qualification, Domain Demand.
  - **Student Panel:** The Student Panel is a web portal where all information and all services that students need can be found in one place. The information on the Student Panel is for all the students. I have integrated various Payment Gateways with student portal for different universities so that student can pay fees online.
- **Technical Specification:**
  - **Development Platform:** JAVA 7
  - **Development & Implementation Environment:** Windows 7,8.
  - **Frameworks & Technologies:** Spring MVC, Hibernate, JSP, Java Script, J Query, HTML, CSS, Ajax.
  - **Java IDE:** Eclipse
  - **Web Server:** Apache Tomcat

#### Responsibilities performed while working:

- Providing / Suggesting Problem definitions and best possible solution for the problems.
- Issue Resolution and Enhancements through reporting bugs, bug fixes and task completion.
- As a Programmer, I worked on all the modules of publication domain and I write Action classes, Service, Service IMPL, DAO and DAOIMPL and many more business logic to complete this project.

#### Personal Skills:

- Can work independently, Adept well to changing situations and respond quickly to changing needs.
- Stable under pressure and remain calm in the face of setback.

Hence, I assess myself as a hardworking, punctual and enthusiastic person who can adapt to any environment with ease. **Nothing is impossible if one determines to achieve it.**

#### Personal details:

- **Date of Birth** : 10 July 1995
- **Gender** : Male
- **Alternate Contact** : +91 -8449767182
- **Residential address** : palm Olympia Sector - 16 C Greater Noida (West).

**Kunwarpal Singh**

(Software Programmer)
