- A SDET with total 3.5 years of experience in Web Automation, Performance Testing, Functional Testing. Currently I am working with ImpactQA, Noida as QA engineer.

Executive Summary

- Automation experience in Web automation using Selenium with Core Java, TestNg, Maven, Jenkins, GIT & other open source API's.
- Extensive experience in implementation of Page Object Model Design Pattern with Different Framework Approaches to achieve high reusability, modularity and usability in Automation Script Development.
- Experience in Performance testing with JMeter tool.
- Fair knowledge of API automation with Rest Assured.
- Fair Knowledge of BDD framework.
- Experience in Mobile App Testing.
- Have Strong understanding of Agile Concepts.
- Hands on experience on Test Management Tools JIRA.
- Experience in Test Automation POC, Planning, Estimation.
- Ability to manage time and priorities effectively to allow for the timely execution of multiple tasks
- Reviewed and recommended improvements for test reporting, test automation and test execution processes.
- Experience in evaluation of the automation test tools in order of building the automation framework
- Hands on Experience to use ALM tool e.g. Azure DevOps that provides version control, reporting, requirements management, automated builds, lab management, testing and DevOps capabilities.

Technical Skills

- **Automation Tool:** Selenium WebDriver
- **Testing Framework:** TestNg
- **Automation Framework & DevOps Skills:** POM, BDD, SauceLabs, BrowserStack, Docker.
- **Build Management Tool:** Apache Maven
- **CI Tool:** Jenkins
- **Application Lifecycle Management Tool:** Azure DevOps.
- **Open Source Tool:** POI, Extent Report, Allure Report, Jenkins.
- **Languages:** Java.
- **Software Configuration Management:** Git.
- **Web Service Testing:** Google Postman, REST Assured API.
- **IDE & Utilities:** Eclipse, MS Excel, MS Power Point, Slack, Zoom, GoToMeeting, Microsoft Teams.
- **Defect Management Tool:** JIRA, Bugzilla, Atlassian, Mantis.
- **Operating System:** Windows 10,8,7

Education

- MCA, Punjab Technical University (2015)
- MBA, IIPM Noida in 2012.
- BCA, IMS Ghaziabad in 2010.

Achievements

1. Developed & provided training programs for Ranorex Studio, Azure devops and received the award for the same in ImpactQA
2. Best QA Trainee in Pradhumna Infotech Pvt. Ltd.

Experience Snapshot:

Organization	Role	Duration	Project
ImpactQA	Quality Analyst/SDET	Nov 2019 – Current	TripMasters

Tools: Selenium, Git, Jenkins, Atlassian

Role: SDET

Languages: Core Java

Activities/Tasks Performed: -

- Reporting the status of project to client in stand up call.
- Updating project manager regularly about the progress of testing activities.
- Responsibilities of test executions.
- Understanding and analyzing test requirement.
- Accountable for writing test cases, and functional testing of the project.
- Creating RTM, executing test cases and reporting defects.
- Participating in different testing methodology and setup for automation environment.
- Sanity testing, retesting and regression testing on modified software application.
- Updating test cases and tracking changes with closure report generation.

Organization	Role	Duration	Project
ImpactQA	Quality Analyst/SDET	June 2019 – Nov 2019	KFC India

Tools: Jmeter,mantis,

Role: SDET

Languages: Java

Activities/Tasks Performed: -

- Preparing test cases by using SRS
- Requirement Analysis in co-ordination with development.
- Performing Regression Testing in each release.
- Performing Performance Testing with JMeter tool in each release.
- Performing Mobile testing of KFC app and M-site on Android and iOS platform.
- Preparing and executing test cases on web application.
- Performing smoke testing, integration testing, system testing, functional testing, Exploratory testing.
- Updating Test Cases based on review comments.
- Prepare the status report and share with Client.

Organization	Role	Duration	Project
Pradhumna Infotech Pvt. Ltd.	Test Engineer	June 2018 – may 2019	BokerWolf

Tools: Google Postman, Jira

Role: Test Engineer

Languages: Java

Activities/Tasks Performed: -

- Preparing test cases by using SRS and XD-flow
- Requirement Analysis in co-ordination with development.
- Performing Regression Testing in each release
- Preparing test cases in jira tool with the help of zephyr plugin.
- Attend Stand-Up call and update the daily task status.
- Attend sprint planning, bug refinement meeting, sprint review meeting and Retrospective Meetings. with overseas developers.
- Performing smoke testing, integration testing, system testing, functional testing, regression testing,
- API testing with postman.
- Updating Test Cases based on review comments.
- Bug Tracking and reporting by using Jira tool.

Organization	Role	Duration	Project
Pradhumna Infotech Pvt. Ltd.	Test Engineer	Jan 2017 – June 2018	ECMA

Tools: BugZilla, MySQL, Google Postman

Role: QA

Languages: Core Java

Activities/Tasks Performed: -

- Preparing test cases by using SRS
- Requirement Analysis in co-ordination with development.
- Performing Regression Testing in each release
- Preparing and executing test cases.
- Performing smoke testing, integration testing, system testing, functional testing, regression testing,
- API testing with postman.
- Updating Test Cases based on review comments.
- Bug Tracking and reporting by using BugZilla.
