

RESUME

Anu Ujjawala

Flat No - 1706, A Block,
Gaur city2 12 Avenue
Greater Noida -201301
Contact no.: +9535687250(M)

E-Mail: anu.ujjwal@gmail.com

7 Year experience in automation testing in multiple domains which includes media, retail , entertainment and telecom. Proficient in function testing,database testing,gui testing and Api testing ,white box testing and automation testing (java and Scala).Worked on agile methodologies(Scrum/Kanban) .Also experienced in managing a team. worked on Big data automation using scala, and worked on selenium web driver with java . Having exposure to AWS also. Also actively engaged with clients to get software document and prepare SRS documents.

PROFESSIONAL PROFILE

- 7+ years of Experience in Software Testing (Functional, Smoke, Sanity, Integration & Regression Testing)
- 3+ Experience in automation testing with tools selenium webdriver using test scripts core java and Test Framework TestNG.
- Around 2 year experience in Web services API Testing.
- 2yr experience in big data automation using scala.
- Experience with WebServices,SOAP,ReadyApi Pro, Soap UI, RESTFUL and WSDL technologies.
- Exposure with various life cycle models like Agile, Waterfall & 'V' model.
- Good exposure in Requirements understanding and analyzing.
- Familiar with Test Plan and Traceability Matrices documents.

- Experience in preparation of Test Scenarios, Test Cases and executing the same.
- Good exposure on SDLC, STLC & defect life cycle.
- Experience in writing Spark SQL queries to extract data from various source table to perform database testing.
- Good knowledge on build tools like Gradle, Maven and Log4j.
- Used various Project Management services like JIRA for tracking issues, bugs related to code and GitHub for various code reviews and Worked on version control tool like GIT.
- Used AWS services like EC2 and S3 for small data sets processing and storage. Used Jenkins for Continuous integration.

EDUCATION QUALIFICATION

- _DAC Diploma from CDAC, Bangalore in 2014.
- B. Tech from U.P Technical University in 2012.

TECHNICAL SKILLS

- Programing languages: Core Java. And Scala.
- Database: Redshift (based on Postgre) , DBMS and SQL Server 2012.
- Familiarity with Software packages: MS-OFFICE.
- Automation Tools/ Frameworks: Selenium Web Driver, Cucumber and TestNG.
- Development Tool: Visual Studio 2015, IntelliJ and Eclipse.
- Build Tools: Git, IntelliJ, NUNIT, Jenkins and log4J.
- Web Service Testing tools: SoapUI, Postman and ReadyAPI .
- Other Tools: Postman, DBeaver, TestRail, Gradle, GIT, SourceTree, CyberDuck, Putty, redshift aws, Microsoft Office Suite (Excel, Word, Outlook), IBM Rational ClearQuest, Jira, Slack and Cisco Webex.,

WORK EXPERIENCE

Telus International as senior software engineer (19th September 2018 till present)

Project 1:

- Testing & Automation of Test Scripts in Ready API using Groovy scripting.
- Reported daily/ weekly status of test cases executed and status of the defects.
- Designed and documented test cases derived from requirements.
- Cucumber was used for the entire regression testing and functional testing with Selenium as primary tool to the Test Scenarios, Test Cases and Test conditions identified.
- Used ALM for Defect Management.
- Create, enhance, extend, and maintain test automation libraries and frameworks
- Written SQL queries for data extraction and validate it from front end application for specific business criteria.
- Executing Automated Regressions suite using Jenkins or CD pipeline Jobs.

Project 2:

- Developing Test Plan ,testcases in TestRail and Test Strategy.
- Raise defect using JIRA.
- Worked with SCRUM team in delivering agreed user stories on time for every Sprint.
- Performed the consistency validations,uniformity validations and Schema Validation after data cleansing.
- Run the automation code for the taxonomy files.
- Prepared the Json template for project pipeline execution .And the code on AWS dynamic cluster.
- After the testcases failed .Debug the code on static cluster.
- Writing Automation Code for new requirements and enhance the code for defect.
- Ensure the data should be bug free.
- Copy the data from QA bucket to version bucket after completion of testing.
- Run the Jenkin jobs for validation on version bucket after data is copied .

At Johnson Controls as Automation Engineer (17 - August – 2017 to 31-July-2018)

- Strong knowledge of SoapUI testing.
- Experienced with functional web services tests.
- Responsible to verify Web Services API request, response data validations in REST and SOAP protocol.
- Responsible for creating Test Environment for web service testing.
- Created and maintained test cases and test scripts for user stories..
- Expertise in testing web services via SOAP, using the open source testing tool SoapUI.
- Executed test scripts .Documented and classify bugs based on severity , found during the process of testing.
- Smoke Testing with NUnit.

At IBM as Test Specialist (03 - March - 2014 to 14 - August - 2017)

- Identify the test cases needs to automate.
- Develop the scripts by using TestNG with Web driver for various Business units in Java.
- Good knowledge of Framework and Xpath expression.
- Understanding the business requirements of the customer.
- Involved in implementation of Page Object Model framework.
- Actively involved in preparing of Test Data for Framework.
- Eexperience in implementation of generic Functions in libraries.
- Eexperience in implementation of Project specific Functions in Libraries.
- Expertise in identifying object locators and creating object repository file.
- Independently developed selenium scripts according to test requirements
- Developing test plan and test strategy.
- Raise defects in Rally.

EXTRA CURRICULAR ACTIVITIES

- Get the certificate of Top Performance in the 2014 Graduate Hire Enablement Program.
- Qualified the **ISTQB Foundation** Level Certification Exam in 2014.
- Received '**Manager's Choice**' Award in 2015 and 2016 for hard work commitment on OneVu Application and Automation testing.
- Received '**Deep Skill**' Award - 2016 Program 4 **times** for demonstrated an investment in building skills that support strategic solutions.

STRENGTHS

Creative, Positive Attitude and Team Worker.

PERSONAL DETAILS

Husband Name	- Vinay Kumar Dhaka
Date of Birth	- 24th Aug 1990
Language Known	- English, Hindi
Marital Status	- Married
Gender	- Female
Nationality	- Indian
Permanent Address	- House-82, Bannu Miya Colony Rohata road ,Meerut 250002
