- ✓ Higher Secondary from State Board in 2015 with 76%.
- ✓ High School Certificate from State Board in 2013 with 84.83%.

Work Experience

- ✓ Worked as Software Engineer in NCS Pvt. Ltd from July 2019 to till date

Projects Undertaken:

[1] Telecom Infrastructure Management System (TIMS)

Client : GTL Infra Ltd, India
Environment : Java 8, Servlet, Spring Boot, Hibernate, Angular 8, MS SQL Server2008.
Role & Responsibility : Code development and unit testing
Reports : Jasper Reports, iReport
Team Size : 15
Duration : Nov 2019 – Till Date

Brief description of the project:

TIMS is live monitoring enterprise web application for Telecom Infra Provider, Telecom Operators (Airtel, Vodaphone etc.) and Operation & Management (O&M) agencies. It is providing online real-time status of Telecom Towers (Sites). Many hardware are installed at Tower run it 24 hours and 7 days a week. This hardware inventory contains AMF Panels, AC, Diesel Generator, Battery Banks etc. These items are connected with the server with the help of a Model over GPRS connectivity. Every minute hardware alarm status sent to the server in string format. Packet Gateway parses this string and pushes real-time hardware status into the database.

On basis of these data TIMS application generates Alarms, Comparative and Analytical reports.

[2] Online Commodity Bidding System (OCBS)

Client : Monsoon Agro Bio Pvt. Ltd.
Environment : Java, JSP, Servlet, JSTL, Spring, Spring MVC, Hibernate, MySQL.
Role & Responsibility : Code Development and Unit Testing
Reports : Jasper Reports, iReport
Team Size : 10
Duration : Jul 2019 – Oct 19

Brief description of the project:

OCBS is the enterprise web application for Online Commodity Bidding Operation. Main feature of system includes Commodity reports, Profile Management, Bidding Process, and Product Management. Bidding process involves selling and buying commodity products by placing bids. Commodity items are shown during the registration of buyer and seller. Buyer can select commodity item from the pre-defined list and enter the Quality and Grade of material looking for. After the bid place, all seller get information via SMS and EMAIL. The seller can bid for the given quantity. Seller can see his rank and status during the live bidding. He can also participate in the partial bidding during the live bid. The seller can place quantity available with him for sale. All buyers will get information via SMS or Email. And Status of bid updated on a daily basis.

Application provides many analytical reports.
