An enthusiastic & high energy driven professional, targeting assignments in Software Development, Data Science and related operation with a growth oriented organization

PROFILE SUMMARY

- Result-oriented professional with **2+ years** of experience across **Software Development** and related operations
- Experience of working with customers, business managers and technical teams for securing & executing concurrent projects
- Successfully managed the development of software products from requirement analysis to system study, designing, coding, testing, debugging, documentation, implementation and maintenance
- Experienced in using technologies such as **Java, Spring Boot, JSP, MySQL, HTML, CSS and Java Scripts**
- Maintained modules including operational support, problem resolution, production support, maintenance and enhancements
- Cultivated strong skills to adapt and understand new domains easily and quickly
- Possess excellent communication, analytical, analysis/mapping and negotiation skills

CORE COMPETENCIES

Software Development	Project Management	Requirement Gathering
Stakeholder Management	Team Management	Delivery Management

ORGANISATIONAL EXPERIENCE

Feb'20 to till with Newgen Software Technology as Consultant (Senior Software Engineer in Java) Key Role Areas:
- Working with one of our client **AU Small Bank** and develop their Retails business solution.
- **Working as implementation engineer with their existing product.**
- **Implementing the project plans within preset budgets & deadlines**; performing on-site & offsite tasks including the design, specification, and integration of software products within various customer environments
- Here I developed multiple webservices for meeting their requirement.
- Managing client/user interaction for requirement gathering, risk assessment, finalization of technical architecture and discussions for effort/cost/time estimation; designing databases and implementing database architecture.
- Steering project operations with key focus on defining Service Level Agreements (SLAs) & **Standard Operating Procedures (SOPs) as well as interacting with prestigious clients**, business partners, vendors & other key stakeholders

Jan'18-Feb'20 with Aavas Financiers Ltd., as Java Developer (Assistant Manager-IT) Key Result Areas:

- Defining code architecture decisions to support a high-performance and scalable product with a minimal footprint
- Gathering & analyzing data in support of business cases, writing test plans and scripts for tracking defects and fixes in product development, software application development, information systems, and operations systems
- Implementing the project plans within preset budgets & deadlines; performing on-site & offsite tasks including the design, specification, and integration of software products within various customer environments
- Following project life cycle methodology under the process framework; ensuring deadlines are met within project budgets
- Steering project operations with key focus on defining Service Level Agreements (SLAs) & Standard Operating Procedures (SOPs) as well as interacting with prestigious clients, business partners, vendors & other key stakeholders
- Ensuring that all activities and deliverables associated with the project are coordinated and completed on time, in adherence to the Software Development Framework (SDF) and Software Quality Assurance (SQA) processes
- Created SRS (System Requirement Specification), FDS (Functional Design Specification) and TDS (Technical Design Specification)

PROJECTS

Title: Aavas Official Website: Feb'18-May'18
- Managed Website Development & Maintenance, Paytm PG Integration, OTP/SMS Integration and Mail Integration
- Used Technologies such as Java, Spring Boot, JSP, Servlet, MySQL, HTML, CSS and Java Scripts

Title : Aavas Mitra: Jun'18-Sep'18
- Integrated applications such as Authserver, User, Branch, Category, Profile, Scheme, Slider RCU Dashboard
- Managed RCU Dashboard and Customer Application Dashboard
- Used technologies such as Java Spring Boot, JSP, Servlet, MySQL, and Java Scripts

Title : Nirman APP : Oct'18-Dec'18
- Integrated applications such as Authserver, User, Loan, Branch, Category, Profile, Scheme, Slider, Nirman and Analytics Management; generated leads and managed Loan Process Application and Employee Profile Application
- Used Technologies such as Java Spring Boot, JSP, Servlet, MySQL, and Java Scripts

Title : CRM Integration (Vendor) : Jan'19-Feb'19
- Developed APIs for vendor to migrate data and used technologies such as Java Spring Boot, JSP, Servlet and MySQL

Title : CKYC Integration (Vendor) : Mar'19-May'19
- Developed APIs for vendor to migrate data and used technologies such as Java Spring Boot, JSP, Servlet and MySQL

Title : Location Credit Report : Jun'19-Aug'19
- Engaged in providing housing loan to customers belonging to low and middle income segment in semi-urban & rural areas
- Used technologies such as Java Spring Boot, JSP, Servlet and MySQL

Title: Customer Application Dashboard : Jun'19-Aug'19
- Used technologies such as Java Spring Boot, JSP, Servlet and MySQL

Title: Credit Automation :Aug'19-Sep'19

- Developed APIs for vendor to migrate data and used technologies such as Java Spring Boot, JSP, Servlet and MySQL

ACADEMIC DETAILS

- B.E. (Bachelor of Engineering) from VNS Institute of Technology, Bhopal in 2017

TECHNICAL SKILLS

Core & Adv. Java	Spring / Spring Boot
Hibernate	MySQL
Java Scripts	Basic of SAS
CSS	HTML

PERSONAL DETAILS

Date of Birth:	06th November 1993
Languages Known:	English and Hindi
Address:	Near Dwarka metro station, New Delhi.
