RESUME

Anandkumar Sagar   **E-mail: anandkumarsjce@gmail.com**
Mobile: 9545222441

Working as Sr Software Engineer with 11+ years of hands on experience in designing, developing web based, client - server based softwares for banking, insurance, wealth & retirement planning clients using Java/J2EE, Spring, spring boot, web services, angular, Struts, Hibernate, JPA, Web services, JSP, Oracle, MSSql, MySQL etc. technologies.

PROFESSIONAL SUMMARY:

- Hands on experience in Software development using **JAVA/J2EE, Spring, spring boot, web services, angular, Struts, Hibernate, JPA, Web services, Junits, Oracle, MSSql, MySQL, JSP, Servlet, HTML** etc. technologies with **Apache Tomcat** and **IBM WebSphere 8.0** Web/Application server.
- 4 years of experience on UI technologies like angular, HTML, CSS, JSP, JavaScript etc.
- Hands on experience on development tool like Eclipse, STS, My Eclipse, Spring tool suite(STS), SOAP UI.
- Hands on experience on writing queries, procedures using, MSSql, Oracle and MYSQL Server Databases.
- Hands on experience on python.
- Sound knowledge on microservices.
- Sound knowledge on ML techniques like regression, classification, clustering, deep learning concepts using ANN and CNN. sklearn, tensorflow, keras libraries.
- Good knowledge of UNIX, Ability to write shell write scripts.
- Development experience includes Agile and Waterfall software development model and all phases of software development life cycle (from initial requirement analysis, design implementation and testing).
- Involved in giving functional/technical knowledge transfer (KT) sessions to the new joiners in team.
- Good team player with very good inter-personal skills, well organized, committed to take challenges and willing to take initiatives.
- Ability to work efficiently, quickly learning & working with new technologies to fulfill project needs.
- Worked on Finance, Banking, insurance and Wealth management domains.

TECHNICAL SKILLS:

Programming Languages	Core Java, J2EE, Python, Typescript, JavaScript
Frameworks	Spring (core, mvc, security, data), Spring Boot, microservices, Hibernate, JPA JUnit, Struts
UI Technologies	Angular, Redux, JSP
RDBMS	Oracle, MySQL, MS SQL Server
Web client and Server Technologies	REST/SOAP Web Services, Java/J2EE, Hibernate, Servlet, JSP, HTML, XML, and JavaScript. Knowledge on REST web services.
Web/Application Servers	Apache Tomcat, IBM WebSphere.
Development Tools	Eclipse, STS, My Eclipse, IBM Rational Software Architect 8.0, SOAP UI
Operating System	Windows10, Windows 7, XP and Linux/Unix
Version Control tools	Git, SVN, Team Foundation Server (TFS), StarTeam.

CERTIFICATIONS:

- Spring 5.0 professional certified by Pivotal
- Certified scrum master (CSM) by Scrum Alliance
- SAFe Certified (Scaled Agile Framework)

PROFESSINAL EXPERIENCE:

Current Employer

Employer	FIS Solution pvt ltd
Designation	Sr. Software Engineer (Sr. Developer)
Tenure	Oct-2016 to Till Date
Technical/Functional Competencies	Core Java, J2EE, Spring, Spring boot, Angular, JPA, Eclipse, Tomcat svn etc.
Software development model	Waterfall and Agile

Previous Employers:

Employer	Accenture
Designation	Sr. Software Engineer (Sr. Developer)
Tenure	30-Sep-2013 to Oct-2016
Technical/Functional Competencies	Core Java, J2EE, Struts 1.2, JSP, SOAP Web services, Oracle(database), Eclipse, Apache Tomcat, SOAP UI etc.

Employer	iGATE
Designation	Sr. Software Engineer (Sr. Developer)
Tenure	27-July-2010 to 25-Sep-2013
Technical/Functional Competencies	Core Java, J2EE, Spring 3.0, Hibernate, Web services, Struts, JSP, MYSQL Server, Eclipse, Apache Tomcat, Web Sphere, SOAP UI etc.

PROJECTS:

Project Name	Unity – Client Insight
Client	Banking Clients (Confidential)
Description	The Unity Expansion project includes adding CRM/Contact Management Capabilities to the Unity Platform. The Client Insight tools and functionality provides a household centric view of clients that exist in FIS's Trust Accounting Systems. A user can perform various actions such as adding party records, add accounts, assets & liabilities to the household, view asset allocation details, propose target allocation, employ financial planning capabilities, produce different consumer facing reports
Environment	Spring, Spring Boot, Spring Cloud (Open Feign for RESTful services), Spring Data JPA, Angular, Redux, Sql server, SVN, Git
Role	Sr Software Engineer (Sr. Developer)
Team Size	20
Duration of the Project	From March-2019 to till Date

Project Name	WealthStation
Client	Banking Clients (Confidential)
Description	WEALTHSTATION allow users and advisors to collect, maintain and manipulate the financial information of particular account of user. It also manages investment management portfolios with various levels of asset allocations for the investment of the user.
Environment	Spring, Spring Data JPA, Angular, Sql server, SVN
Role	Sr Software Engineer (Sr. Developer)
Team Size	12
Duration of the Project	From Oct-2016 to March-2019

Project	Worked For	Client	Environment
Barclays eBox Africa	Accenture	Barclays	Struts, java/J2EE, Web Services, JSP, Oracle (database) and Apache Tomcat.
Global Sales Platform	iGate	Metlife	Spring, Hibernate, Java/J2EE, Oracle. WebSphere, IBM Rational Software Architect (IBM RSA)
CSIL (Customer Sensory Integration Labs)	iGate	Philip Morris, USA	Struts,Hibernate,java/J2EE, JSP, Oracle 9i, Apache Tomcat. Role Software Engineer (Developer)

ACADEMICS:

- B.E. in Computer Science with 71% from Sri Jayachamrajendra College of Engineering, Mysore affiliated to VTU, Belgaum, in the year 2010.
- 12th with 80% from Shivaji Comp PU College, Bhalki in 2006.
- 10th with 70% from Govt. High School Ladha, in the year 2004.

PERSONAL PROFILE:

Name	:	Anandkumar Sagar
Father's name	:	Kishanrao Sagar
Date of Birth	:	7th December 1988
Address	:	A-603, Siddhi greens society, Garmala colony, Rahatani, Pune-411017
Languages	:	English, Hindi, Marathi, Kannada.
