Objective Career

I am looking forward to work in an organization, which provides the environment for growth with competent and strong leaders in Manual and Automation Testing having an experience in Functional, Non-Functional, Globalization, UI Testing, API Testing, Automation Testing (Selenium Web driver with JAVA) and Web service Testing using POSTMAN. I have an urge and inclination for learning new technologies, a strong work ethic combined with a commitment to excellence in all projects undertaken.

Professional Summary

- 3+ years of Experience in **Automation testing, Manual Testing** and all phases of Software Testing Life cycle **(STLC)** with good experience in the **Sanity Testing, Functional Testing, Regression Testing, Retesting, Database Testing, Performance Testing.**
- Implemented **Agile Methodology** process in the Project.
- Experience in domains like **Investment Banking, Telecom.**
- Developed, executed and maintained automated test scripts using Java programming language and test frameworks such as **Selenium, MAVEN, GitHub, Listeners, Log4j, Jenkins and Extent Reporter**.
- Good understanding of **Object-Oriented Programming design principles and concepts.**
- Experience in programming languages like **Java, SQL.**
- Experience on test management/defect management tool like **JEERA.**
- Executed all the test case and report defects, define **severity and priority** for each defect.
- Basic Knowledge about **UNIX Commands**.
- Working knowledge and experience in all phases of **software development lifecycle (SDLC) and software Testing lifecycle (STLC)** including requirements analysis,test planning, test case design and test execution.
- Strong knowledge on manual testing with **functional, database testing Including File Validation, Non Functional testing, Globalization Testing, Cross Browser Testing, Web services Testing, API Testing, UI Testing and Automation Testing using Selenium Web driver with JAVA.**
- Good understanding of **Dynamic Xpath** and **Iframe**.
- Experience of identifying **Webelements** using different locator strategies like **Xpath ,Id,Name,Classname, Tagname, CSS, Linked text , Partial linked text** and performing different actions on them.
- Experienced in handling static and dynamic **Web-tables** in selenium.
- Knowledge of handling Synchronization (**Implicit, Explicit and Fluent**).
- Experience **TestNG, Annotations** and **keywords**.
- Experience in designing of **POM (Page Object Model)** classes.
- Knowledge of JAVA concepts like **OOP's, Collection, Arrays and String Class**.
- Experienced **in Handling Popups, List Box& Actions, designing POM (Page Object Model) classes and Test classes execution using TestNG & Annotations.**
- Experienced in developing the scripts using **TestNg** framework **TestNg Annotations** ,running multiple test classes using **TestNg .xml** .
- Experienced in applying **Hard** and **Soft assertions** to tests in tests in automations scripts.
- Good Knowledge of **Web service and API Testing** using **SOAPUI and POSTMAN**.

Employment History

Currently Working as **Software Test Engineer at Infodeal Technologies Private Limited** from August 2018 - till date.

Technical Skills (Trained / Project Acquired Skills)

Automaton Testing Tools	Selenium Web driver with JAVA
Database	My SQL server 2014, oracle
Defect Management tool	JEERA,HPALM
Languages	JAVA, SQL, UNIX
Operating Systems	Windows Family
Web services Testing tools	SOAP UI, Postman

Educational/Academic Qualification

- **Bachelors of Engineering** with Distinction class from Dr. Babasaheb Ambedkar Marathwada University(2017).

Project's Profile

- **Project 1 – LMFX**

- **Client Name – LMFX. Europe.**

- **Domain – Investment Banking**

Testing Methodology: Manual Testing , Automation Testing ,Database Testing

Description:-

LMFX is a stock and forex broker offering MT4 trading with high leverage rates. This review explores LMFX's forex pairs, deposit and withdrawal options, regulation status, bonuses and accounts. The broker has a limited range of additional services and tools for clients. There are no educational resources offered to explain key terms and coach new clients through the basics of trading, something that many other providers offer.

Roles and Responsibilities: -

- Requirement Analysis: Understanding the requirements and communicating with BA team for better understanding of the requirements
- Identify the test cases for **Automation.**
- Responsible for creating **POM** and **Test class** for the Automation Framework.
- Designed and executed test cases according to functional specifications.
- Execution of Test Cases.
- Test Execution of system test suite.
- Analyzing the requirements & preparing test documentation for the same.
- Involved in the requirement study, design and development of the test cases.
- Review of Test Cases/Test Document.
- Performed Functionality Testing, Retesting and Regression Testing.

- **Project 2 :Dial-Gate VoIP Billing Solution**
- **Domain Type: Telecom**
- **Client   : Di alexia Communications (Canada)**

Testing Methodology: Manual Testing, Database Testing

Description:-

Web-based SIP softswitch and billing server for both the VoIP and PSTN networks. This Class 4/5 communication platform allows operators specialized in VoIP to provide powerful and secure services that ensure a quick Return on Investment (ROI), at low costs. Interoperability and the ability to exploit SIP compliant domains make it an adaptable product that will easily integrate into the client environment while bringing a fast ROI.

Roles and Responsibilities:

- Requirement Analysis: Analyzing the requirements and communicating with BA team for better understanding of the requirements and SRS Analysis.
- Preparation of Test Scenarios and Test cases
- Reporting and Closure of Defects submitted in Defect Tracking tool
- Interaction with development team in defect fixing process and regression testing
- Identified End to End Test Scenarios, Test Cases and Test Data.
- Performing Functional Testing, Regression Testing.
- Validation of Expected output vs Actual Output in respective logs files using UNIX.
- Identification of defects, registering them in JEERA and reporting them to the onsite lead.
- Active participation in weekly/daily status calls with the client.
- Responsible for testing deliverables, prioritizes and monitors activities to meet such dates for individual assigned features.
- Validation of Expected output vs Actual output in respective database tables Using SQL.

Personal Details

- Date of Birth   : 12-08-1996
- Marital Status   : Unmarried
- Languages   : English , Marathi , Hindi
- Current Address : Pune
