Email: developermani92@gmail.com

Name: Manikandan

Mobile: +91-9080058516

Professional Summary:

- Having overall 3+ years of experience in Development, Research and Implementation of Software Applications.

- Good experience in developing applications using JAVA/J2EE technologies like Java, JDBC, Servlets, Jsp, Spring IOC, Spring MVC, Spring Boot, Spring Data, Spring ORM, Hibernate with JPA, Restful Services.

- Having Good Work Experience with JSON data parsing using JACKSON Api.

- Experience with Software Development Processes &Models: Agile Models.

- Experience in working with batches to perform business operations in bulk mode.

- Extensive experience in working with Oracle, MySQL and H2 databases.

- Excellent analytical and programming abilities in using technology to create flexible and maintainable solutions for complex development problems.

- Excellent skills in developing code for the database applications to interact with the databases using JDBC and ORM Frameworks.

- Having Good Experience in Using JENKINS tool for CI & CD.

- Having Good Work Experience in using JIRA tool for Project Management.

- Having Good experience in code review using SONAR QUBE.

- Having good work experience with Performance Testing using JMETER tool.

Experience Summary:

- Working as Software Engineer with Eshanvi Innovative Tech Services Pvt.Ltd from June-2018 to till date.

Technical Skills:

Java Technologies	Java, JDBC, Servlet, Jsp.
Distributed Technologies	Restful Service
Frameworks	Spring, Spring Boot, Hibernate
Web/App Servers	Tomcat
IDE	Eclipse and STS
Operating System	Windows, Linux
Tools	Maven, GIT, Log4j, Junit, Mockito, JIRA

Educational Qualification:

B.E (Computer Science) from Jayalakshmi Institute Of Technology Dharmapuri

PROJECT DETAILS:

Project # 1: Health Insurance System
Duration : May-2019 to till date
Environment : Java, JSP, Spring, Spring Boot, Hibernate, Web Services, RESTful Services, Oracle and HP Extreme Industry : Health and Human Services Service Area
Role : Team Member

Description

The objective of the project is to implement a fully integrated Health Insurance Exchange and Integrated Eligibility System for Kentucky state citizens. As part of this application we are providing below health and insurance plans for citizens.

1) SNAP
2) CCAP
3) Medicaid
4) Medicare
5) QHP
6) KTW

Responsibilities
- Involved in gathering the requirements, analysis, design & development of the project.
- Involved in development of Web Forms, classes using JAVA that incorporates and Database Connectivity
- Developed Persistence layer using Hibernate framework
- Created batch jobs to process client notices on daily basis
- Created server controls using Spring Controller classes
- Involved in code review using Sonar Qube
- Involved in the Unit test and Integration testing
- Supported for SIT and UAT phases for defects fixing

Project # 2: CURAM
Role : Team Member
Duration : June-2018 to July-2019.
Environment : Java, JSP, Spring, Spring MVC, Hibernate, and Oracle.

Description

This application is about insurance .For an instance based on employee experience they would offer an insurance for that particular employee. The experience will be divided in three category sliver, bronze, gold. A person who has four year experience mean he would come under gold Category followed by rest of the category like 3 years,2 year.

Responsibilities

- Involved development of the application using **Spring MVC ,** and other component of Spring framework.
- Developed Web Forms using JSP
- Involved in client side validations using JavaScript.
- Involved in **Business Logic** as per client requirement.
- Configured **Hibernate** to store the persistence data into **Oracle** database and written to the access data from database.
- Deployed the application on **Tomcat7.0** web server.

I hereby declare that all of the details furnished above are true on the best of my knowledge and belief.

PLACE:

                                                           (Manikandan G)
